CORRECTION
Piece #21 should
be cut from this
pattern with
top cap.

June Holiday House Correction

CORRECTION DATE 3/21/2012: JUNE Holiday House

Under "Materials Needed" Cobblestone Medium Grey/Tan House 3" x 10" pattern piece listing should read: Cobblestone Dark Grey/Tan Chimney 3" x 10" On the pattern page piece # 21 shown chimney without top cap. Replacement chimney piece is to the right. Patterns shipped out before 3-21-2012 will need this updated pattern piece. The image on the outside of the packaging of the first run of patterns will picture the chimney as two pieces - however subsequent patterns will show as one pattern-piece on the covers. Shops and distributors may want to download the multiple #21 pattern piece pdf to cut apart and add to the patterns you have on hand from our website.

We have included a brightly colored correction slip of paper with the new patterned chimney on all inhouse inventory. If you have purchased a June House before this notice you will have the old chimney. You can download this pdf and make the correction. If you have purchased several June patterns there is a multiple chimney pattern available. Each letter size paper will print 5 chimney patterns that you can cut apart and slip into the pattern.

We try our best at Zebra Patterns to create, test, check and recheck our patterns. Unfortunately occasionally a mistake gets out. We do our best to make corrections on our website ASAP. We are very sorry for this error.
